FATAVAT ARMAN

AI/ML Engineer (Fresher)

+91 8866631973 armanfatavat111@gmail.com LinkedIn GitHub India

Profile

Aspiring **AI/ML Engineer** skilled in Python, Machine Learning, and Generative AI. Experienced in developing ML pipelines, and **RAG-based applications** using LangChain and FastAPI. Strong foundation in data preprocessing, model development, and LLM-powered solutions.

Skills

Programming: Python, SQL, Java (Basic)
Data Science: Scikit-learn, Supervised and Unsupervised Machine Learning, Pandas, NumPy
Generative AI: Generative AI, RAG, LangChain, LLMs APIs
Visualization: Matplotlib, Seaborn, Plotly, Power BI, Excel
Tools: FastAPI, Streamlit, GitHub, Jupyter Notebook, Google Colab, VS Code

Experience

Machine Learning Intern **July 1, 2026 – September 14, 2026**
FlyRank AI *Remote*

- Worked on ML workflows involving data preprocessing, analysis, model development, and evaluation.
- Applied Python and data science libraries to build and experiment with ML solutions.

AI Agentic Intern **July 3, 2026 – July 17, 2026**
CRIX Technology Pvt. Ltd. *Remote*

- Completed a 15-day GTU internship focused on Agentic AI and application development.
- Developed a **Chatbot** as the final internship project.

Foundation of AI Intern **April 2025 – May 2025**
Edunet Foundation (AICTE Approved Internship)

- Developed a **House Price Prediction** project using Python and Machine Learning.
- Applied Pandas, NumPy, and Scikit-learn for preprocessing, feature engineering, model training, and evaluation.

Projects

StudyMate AI – RAG-Powered Study Assistant *Python, RAG, LangChain, LLMs, Streamlit*

- Built an AI study assistant supporting PDF, TXT, notes, and URL ingestion.
- Implemented a **RAG pipeline** for contextual summarization and source-grounded answers.
- Enabled interactive conversations with uploaded study materials using LLMs.

SmartCrop – Crop Recommendation System *Python, FastAPI, Scikit-learn, Pandas, NumPy*

- Developed an ML application recommending crops using NPK, temperature, humidity, pH, and rainfall.
- Built an end-to-end pipeline for preprocessing, feature scaling, model training, and prediction.
- Integrated the trained model with FastAPI and a responsive frontend for real-time recommendations.

Certifications

Python for Data Science – IBM (2025) Verify
Data Analysis with Python – IBM (2025) Verify
Data Visualization with Python – IBM (2025) Verify
Machine Learning – IBM via Coursera (2025) Verify

Achievements

- Participant, **UNESCO Global Youth Hackathon 2025** – collaborated on a social-impact project.
- Participant, **Smart India Hackathon 2025** – contributed as Data Engineer in Team Visionary Herd.

Education

B.E. – Computer Engineering **CGPA: 8.15**
Government Engineering College, Palanpur *Gujarat Technological University (GTU)*
